DETAILED ACTION

Allowable Subject Matter

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-7, and 10-21, the prior art alone or in combination does not teach the limitation of a sintered body electrode for capacitors comprising a value obtained by dividing the difference between the volume measured in a vacuum, which are determined according to the Archimedes method, which is a method for determining the density of a sample using Archimedes' principle that the buoyancy which a solid in liquid receives is equal to the mass of liquid having the same volume of the solid, by the volume measured under atmospheric pressure is 11% or less.

With respect to claims 8-9, the prior art alone or in combination does not teach the limitation of a method for producing a sintered body electrode for capacitors comprising a value obtained by dividing the difference between the volume measured in a vacuum, which are determined according to the Archimedes method, which is a method for determining the density of a sample using Archimedes' principle that the buoyancy which a solid in liquid receives is equal to the mass of liquid having the same volume of the solid, by the volume measured under atmospheric pressure is 11% or less.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
